3700 Series Rim Latching Exit Device

Packaging powerful security into a compact size, the 3700 can be mounted on doors with stiles as narrow as 2" and includes a 1" forged steel latch bolt. Non-handed and available for doors up to 4 feet, the 3700 is a convenient solution for demanding, busy traffic conditions.

These durable devices are ANSI Grade 1 (500,000 cycles) and UL Listed. Striking anodized finishes are accented with high performance coatings on solid metal end clips.

Series 3700 Rim Latching Exit Device Specification

Exit Device shall be First Choice Building Products series 3700 Rim Latching. Harmon 586 model utilizing a low profile latch bar projecting less than three inches (3") from the face of the door. The device shall use 1" hardened steel latch bolt engaging a frame mounted stainless steel roller stile. The device shall be active the full length between door stiles and mount to the door using metal covers and end caps and require no more than 2" width of door stile. The device push bar and base shall be 6063, T-6 hardened aluminum in anodized finishes. The device shall be capable of operation by external key cylinder with Night Latch or Hold Back setting. The device shall be capable of disengagement by single point, quarter turn dogging.
